

MELBOURNE SOUTH YARRA RESIDENTS GROUP INC.

Established by the residents of South Yarra in 1969

REPORT ON METRO RAIL MEETING – 4 SEPTEMBER 2019

Construction

1. In October digging of the third (middle) box will start.
2. This will require the tram lines to be moved and it is expected that trams will be replaced by buses in the second half of October.
3. Building the huge acoustic shed over the holes to reduce the noise impact has started and will be finished by Christmas.
4. An enormous amount of equipment has been installed on Edmund Herring Oval in preparation for handling the sludge when tunnelling starts next year.
5. Construction of the north and south boxes continues.

Trucks

6. Construction of the new middle box will not interfere with trucks entering and leaving over the construction site so while we may have occasional trucks in Domain Road things will remain much the same as at present.

Domain Village pop-up

7. Building of the pop-up is still planned for later this year.

605 Bus

8. We have been informed by PTV that the return of the 605 bus will not be until the Southbank Blvd changes have been completed by Council and we are attempting to get that information.
