

REPORT ON METRO RAIL MEETING – 11/5/22

Construction

- . Fitting out the tunnel continues.
- . Tram canopy will be in place by end June.
- . Construction of the kiosk at southern end of tram platform is underway.
- . Removal of acoustic shed complete.
- . Construction of station above and below ground continues.
- . Noise and vibration impact on StKilda Rd residents is a serious issue – we are very fortunate.

Traffic

- . Southbound traffic around construction site to be changed shortly.

Completion Date

- . The first train carrying passengers is expected in 2025.
